

# Introducing ARBUY

## Working with Arkansas Just Got Easier

The State of Arkansas is implementing a new eProcurement system called ARBuy. ARBuy will transform the purchasing processes for State Departments, Entities and Local Governments, and allow suppliers to do business with Arkansas government more efficiently.

## Bid Notification & Online Shopping

ARBuy is essentially a toolkit designed to simplify purchasing and increase transparency across the entire Arkansas procurement ecosystem. All state agency solicitations and purchase orders will soon happen here, and an online shopping tool will allow both state and local buyers to easily buy from statewide contracts. Specifically for suppliers, once registered in the system, ARBuy will notify you daily of all relevant bid opportunities, and serve as a single portal for submitting RFP responses. In addition, statewide contract holders will be prompted to upload their catalogs into the ARBuy Marketplace for easy shopping from buyers.

## Have Questions About ARBuy?

Contact the dedicated supplier enablement team at [arbuy@periscopeholdings.com](mailto:arbuy@periscopeholdings.com) or call **800-203-5727**.

## As of Fall 2021, Registration in ARBuy Will Be REQUIRED to Do Business With the State of Arkansas

**Get Registered Today.** Check out the ARBuy website for information on registering and begin to receive solicitation notices for the state of Arkansas:
